College
Dr.Mahalingam College of
Engineering and Technology

About

I am currently pursuing my under graduation at Dr.Mahalingam College of Engineering and Technology in the field of Computer Science and Engineering. At present, I'm climbing the ladder of full stack developer where I've already began my implementations of front-end portion of the websites.

Soft Skills

- Team work
- Communication
- Leadership
- Adaptability
- Creativity

Techical Skills

Hands On

- C
- MySQL
- HTML
- CSS
- JS
- Php

Tools

- GitHub
- Anaconda
- Jupyter Notebook
- Visual Studio Code
- NetBeans

Courses

1.Programming For Everybody(Using Python) in coursera in 2021
2.Natural Language Processing with Probabilistic Models in coursera in 2022
3.Foundations: Data, Data, Everywhere by google on 2022
4.The Joy of Computing using Python with 81% in NPTEL during July-October 2022.
5.IoT Automation using ESP32 in GUVI during February 2022.
6.The Cloud Computing with 69% in NPTEL during July-October 2022.

Extra Curicular Activities

- Participated Paper Presentation in Kongu College of Engineering and Technology at Erode in 2022.
- Participated in Paper Presentation at MCET in 2022.
- Won 1st price in Technical Event at Kongu College Event
- Participated in SIH And Selected For Final Round
- Participated in Cyber Security Workshop conducted in MCET

Education

Dr.Mahalingam college of Engineering And Technology,Pollachi 2020-2024

Vikas Vidyalaya Matric Higher Secondary School Tirupur HSC With 69.5% in 2020

Hilton Matric Higher Secondary School Chennei SSLC with 87% in 2018

Interests

- Traveling
- Coding
- Reading books
- Learning new things.

Hobbies

- Listening Podcast
- Listening Music
- Learning New Skills
- Listening Stories

Area Of Interest

- Front End Development
- Database Management
- object oriented software engineering

Language

- Telugu
- English
- Tamil

Projects

Mobile Purchasing Application

Simple Project with the idea of purchasing the shown mobiles along with the specifications
project Link:https://github.com/shanjai1505/Mobile_paradise.git

BMI calculator

Calculator that takes the height and weight of a person as input and returns the health condition of him/her.

Student Result Management

A combined and front-end and back-end connected web application that helps in storing the results of students
Project Link:https://github.com/shanjai1505/Student-Result-Management-System.git

Portfolio

Explored and worked with the CSS and Java Script to show case my works

Python Automations

Google Search | Whatsapp | Instagram

1. Google automatically searches and opens the page. 2.Whatsap automatically sends an text to various number of chats. 3.Instagram automatically opens the profiles of the persons.
Tools: Jupyter Notebook
Language : Python
Libraries : Selenium , webdriver ,time
Google automation : https://github.com/shanjai1505/Google-Search-Automation.git
whatsapp automation:https://github.com/shanjai1505/Whatsapp-Automation.git
Instagram Automation :https://github.com/shanjai1505/Instagram-Automation.git
